DETAILED ACTION

The amendment and remarks filed 9/8/06 have been acknowledged and entered.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 9 and 10, line 5, "the pointed end" lacks antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1, 3, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Wallock et al. (5,471,706).

Wallock et al. disclose a device for cleaning dental instrument comprising a container containing bristles, and a finger grip ribs 22 (girth). The reference discloses that the container includes guard loop 50, and guard collar 45, and protective rim. See col. 3, line 65- col. 4, line 2, col. 5, lines 3-10, 57-59, 29-37, and the claims. The reference discloses the prongs (brush 10) as claimed.

Application/Control Number: 10/656,953 Page 3

Art Unit: 1746

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 6. Claims 2, 4, and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wallock et al. (5,471,706) in combination with Williams (4,362,241).

Wallock et al. disclose a device for cleaning dental instrument comprising a container containing bristles, and a finger grip ribs 22. The reference discloses that the container includes guard loop 50, and guard collar 45, and protective rim. The reference does not teach the container includes gauze, as claimed. See col. 3, line 65- col. 4, line 2, col. 5, lines 3-10, 57-59, 29-37, and the claims.

Williams discloses an apparatus for disinfection of dental instruments. The reference discloses the container and the gauze inside the container. See Figs. 1 and 7, col. 4, lines 61-67, and col. 5, lines 14-25.

It would have been obvious for one skilled in the art to use the gauze taught by Williams in the Wallock et al. container to remove any contaminants remains on the instrument.

7. Claims 7-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cerroni (5,704,088) in combination with Wallock et al and Williams.

Application/Control Number: 10/656,953

Art Unit: 1746

Cerroni discloses a method and apparatus for cleaning dental instruments. The reference discloses holding the device in one hand, placing the dental instrument inside the open container, putting the pointed tip of the dental instrument in contact with the bristles, and wiping the tip of the instrument. See col. 3, lines 1-38. The reference discloses the objectives and advantages of the invention to provide an apparatus has many sizes and many geometric volume configurations. See col. 5, lines 21-34. The reference discloses the device is made of flexible material as claimed. See the abstract, col. 5, lines 20-42, col. 6, lines 11-30, and claims 2, 11.

Page 4

The reference does not teach the container containing gauze, the girth, and the prongs as claimed.

Wallock et al. disclose a device for cleaning dental instrument comprising a container containing bristles (prongs), and a finger grip ribs 22 (girth). The reference discloses that the container includes guard loop 50, and guard collar 45, and protective rim. The reference does not teach the container includes gauze as claimed. See col. 3, line 65- col. 4, line 2, col. 5, lines 3-10, 57-59, 29-37, and the claims.

Williams discloses an apparatus for disinfection of dental instruments. The reference discloses the container and the gauze inside the container. See Figs. 1 and 7, col. 4, lines 61-67, and col. 5, lines 14-25.

Art Unit: 1746

It would have been obvious for one skilled in the art to use the gauze taught by Williams and the girth and prongs taught by Wallock et al. in the Cerroni container to enhance the cleaning.

Response to Arguments

8. Applicant's arguments with respect to claims 1-10 have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zeinab E. EL-Arini whose telephone number is (571) 272-1301. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on (571) 272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
